

PROFESSIONAL SUMMARY

Computer Science undergraduate (AI & ML) skilled in full-stack development (C++, Java, Python, JavaScript, Node.js, React, MongoDB) across the SDLC, with strong DSA/OOP fundamentals (**740+ problems solved**), REST API design, Git/GitHub version control, and GCP cloud platforms. Writes clean, scalable code, participates in code reviews, and collaborates cross-functionally to meet project milestones

EDUCATION

B.Tech in Computer Science (AI & ML) JECRC University, Jaipur CGPA: 9.23	2023 – 2027
Senior Secondary School , SKSS Sec. School Percentage: 77.20	2022
Secondary School , LPS Percentage: 95.67	2020

SKILLS

Languages:	C++, Java, Python, JavaScript
Frameworks:	React.js, Node.js, Express.js
Databases:	MySQL, MongoDB, NoSQL
Cloud Platforms:	Google Cloud Platform (Firebase, Firestore)
Tools & DevOps:	Git, GitHub, VS Code, Windows, Linux
Core Skills:	Data Structures & Algorithms, OOP, SDLC, Operating Systems, DBMS, Computer Networks, Debugging
Soft Skills:	Communication, Leadership, Teamwork, Adaptability, Continuous Learning

WORK EXPERIENCE

Data Analyst Intern Samatrix Consulting Private Limited LINK	Jun 2025 – Jul 2025
- Debugged and validated data pipelines, applying statistical techniques to identify root causes of inconsistencies across 5K+ records and generate actionable insights for data-driven decision-making. - Built KPI dashboards to visualize key metrics, reducing manual analysis effort by ~30%. - Delivered multiple analysis reports within a 4-week internship under strict timelines.	

PROJECTS

ScholarBoard - Student Performance & Placement Platform WEBSITE	Nov 2025 – Jun 2026
Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, JWT, Cloudinary, Nodemailer, REST APIs	
- Architected a full-stack MERN platform with 4 hierarchical roles, 4 personalized dashboards, and 40+ secured REST API endpoints supporting authentication, RBAC, document management, analytics, and recruiter-facing talent discovery. - Engineered a 6-pipeline approval ecosystem and 6-workflow document management system handling resumes, certificates, OD requests, and activity proofs, with 5 automated escalation paths, role-aware audit tracking, and Cloudinary-linked secure storage. - Integrated 4 external services and a track-personalization engine auto-mapping 100% of student records into 2 engineering tracks with zero downtime, while hardening security via JWT, XSS sanitization, NoSQL injection protection, and RBAC middleware validated in production.	
FutureMedia - A Social Media Platform GITHUB	Jan 2026 – Present
Tech Stack: MERN, Redis, BullMQ, Socket.io, Docker, JWT, Cloudinary	
- Architected a hybrid full-stack social media platform (React, Node.js, Express.js, MongoDB, Redis, BullMQ, Socket.io, AI microservice) with ~35 – 45 REST API endpoints and 6 relational MongoDB collections. - Containerized 5 services via Docker Compose, implemented Redis-backed BullMQ for async processing, and enabled real-time messaging via Socket.io; secured the app with 6+ layers including JWT, RBAC, Helmet, and rate limiting. - Built a React SPA with 8 pages and 9+ reusable components using TanStack Query caching; integrated Cloudinary + Multer for media uploads (10 files/request); and set up CI/CD with GitHub Actions and Jest for automated testing.	

CERTIFICATIONAll Certificates

ServiceNow , Jaipur (Virtual):	
Certified System Administrator (CSA)	Jun 2026
Certified Application Developer (CAD)	Jun 2026
Google Cloud Computing Foundation , Jaipur (Virtual) LINK	Mar 2025
Foundation of AI & Data Science, Probability Modelling & Statistics, Deep Learning, Neural Networks	

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

- Solved **740+ DSA problems** across **LeetCode** (530+, Max Rating: 1779), **GeeksforGeeks** (120+), **Code360** (70+, Max Rating: 1506), and 20+ on other competitive programming platforms.
- Winner – CodeHunt (JECRC University) | Ranked 1st among **25 teams** in a three-stage coding & logic competition.
- Finalist – CodeAthon 1.0 (JECRC University) | Advanced to the top 25 of **500 participants** across 2 rounds, finishing in the **top 10** by solving 2 medium-level DSA problems in the final round.
- Selected for McKinsey & Company Forward Program | LINK
- MyGov India Campus Ambassador | JECRC University** – Organized **5+ campus engagement events**, promoting government initiatives and reaching **2,500+ students** through awareness sessions and student outreach.
